PROFILE

Final-year BSc Information Technology student graduating at the end of 2026, with hands-on programming experience in Java and a strong foundation in object-oriented design, data structures, databases, and systems analysis. I build working software from the ground up from custom data-structure implementations to a hand-coded portfolio site. Alongside my studies I've held roles demanding client communication, financial responsibility, and problem-solving under pressure. I'm looking for a software development role where I can contribute, keep learning, and grow into a well-rounded engineer.

TECHNICAL SKILLS

Languages & Programming: Java (OOP, data structures & algorithms), structured programming, SQL / databases, C#, C++, Python

Web: HTML5, CSS3, JavaScript, Git & GitHub, GitHub Pages

Concepts: System analysis & design, information security, computer networks, operating systems, AI fundamentals, decision support systems

Professional: Problem-solving, client communication, teamwork, time management, leadership

PROJECTS

Portfolio Website (Virtual CV) | [HTML](#), [CSS](#), [JavaScript](#)

2025

- Hand-coded, responsive personal site hosted on GitHub Pages, featuring a typed terminal intro, dark-mode toggle, and scroll-triggered animations — built without frameworks.

Call Centre System | [Java](#)

2025

- Implemented custom stack and queue data structures on a linked list to model first-come-first-served call handling with an undo feature for reopening resolved calls.

Game Characters Engine | [Java](#)

2025

- Demonstrated inheritance and polymorphism through an abstract character class with subclasses computing attack damage differently clean OOP design.

EDUCATION

BSc Information Technology | [North-West University](#)

2022 – 2026 (expected)

Final semester in progress (3 modules remaining).

Relevant modules include:

- Object-Oriented Programming · Data Structures & Algorithms · Structured Programming
- Databases & Advanced Databases · System Analysis & Design 1 & 2 · Information Security
- Computer Networks · Operating Systems · Artificial Intelligence · Decision Support Systems

Distinctions in Financial Accountancy, Financial Accounting and Descriptive Statistics. NSC (Matric), Bergsig Academy — 2020.

EXPERIENCE

Financial Advisor | [Sanlam](#)

2026

- Advised clients on financial products, building skills in client relationships, trust, and clear communication of complex information directly transferable to gathering and explaining software requirements.

Finance Portfolio, House Committee | [NWU Villagers Residence](#)

2023 – 2024

- Elected to run residence finances: budgeting, ensuring stable income, and responsible use of funds for a full residence community. Earned certificates in crisis management, marketing, and conflict management.

IT Support (Vacation work) | [GP Brokers](#)

2020 – 2023

- Diagnosed and resolved hardware and software problems in a financial-advisory office, keeping systems running reliably.

Administration (Vacation work) | [Endecon Ubuntu](#)

2018 – 2019

- Streamlined administrative processes and supported consulting work.

Languages: English (fluent), Afrikaans (fluent). **References:** Available on request.
